# An address worth considering.

## 01 Boulevard-facing glazing

The ground-floor glazing faces Moscova Boulevard — the brand is seen from the street.

## 02 A direct customer entrance

A direct customer entrance from the boulevard — steps and a ramp; a separate exit to the courtyard.

## 03 Established residential surroundings

Around it — residential blocks, schools and everyday services of the Rîșcani sector.

1. **Moscova 20**
2. Shopfronts to the boulevard
3. Customer entrance: steps and a ramp
4. Pedestrian approach from the pavement
5. Moscova Boulevard — traffic in both directions

A real aerial photograph. The outline shows the premises in the frame — it is not a cadastral boundary.

# Two levels. One concept.

Ground floor and lower ground: the customer area and the support space in one concept.

08 — LOCATION

# Rîșcani. Moscova Blvd × Matei Basarab St

20 Moscova Blvd. The intersection of Moscova Boulevard and Matei Basarab Street, Rîșcani district. The frontage and the entrance face Moscova Boulevard.

DISTRICT GROWTH

## The district is growing. So are the opportunities.

Across the boulevard from Moscova 20 lies the site of the former Mezon plant. A zonal urban plan has been drawn up for the block: housing, retail and offices, a school-kindergarten.

**Status of the plan.** The draft passed public consultation (5 Feb 2024) and received the state authority's favourable general endorsement (No. 313 of 15 Jul 2025; "Aprobat" in the state register). Approval of the plan by the Chișinău Municipal Council has not been published. Building permits and a start of works are not confirmed; no developer or timetable has been announced.

# ≈ 140 m

**to the nearest stop · about a 2-minute walk**

The distance is an estimate: from the OpenStreetMap map, measured from the customer entrance; accuracy ≈ ± 15 m. Not a GPS measurement.

# One space — **different formats.**

The same space can be read in different ways — depending on your format, your client journey and your operating requirements.

| | | |
|---|---|---|
| 01 | **Retail**<br>Will they notice me? | **The shop window is seen from the street.** Continuous glazing makes the shop visible from the boulevard. |
| 02 | **Showroom**<br>Can the product be shown well here? | **The space reads as open.** The open layout allows a clear presentation of the product. |
| 03 | **Client service**<br>Is it easy for clients to get here? | **Public transport close by.** 8 public transport routes within a 350 m radius. |
| 04 | **Office · customer centre**<br>Does the space work for the team and for clients alike? | **The space can be divided by function.** There is room to organise work, client and support areas. |
| 05 | **Manufacturer's Own Store**<br>From producer to customer. Directly. | **Glazing to the boulevard.** The ground-floor glazing shows the products and the brand to Moscova Boulevard. |

If the property suits you in location and format, the next step is to check the technical feasibility of your scenario. For regulated formats — clinics, medical services, food service and other activities — special technical and permit requirements are checked as well.
